

**For immediate release**

## **Now open - DIVINE wine bar**

A really good wine and cocktail bar has been missing on Ubud's otherwise very versatile gastro scene. However, the new gem, DIVINE wine bar, was well worth the wait!

Now open, the amazing bar is located below the Riverside dining room of **bridges** restaurant next to the old Tjampuhan bridge. You can hear the river flow and the views into the lush green and under the bridge are breathtaking. The eclectic interior invites to relax, spend time and have a drink or two. Not only is the wines by the glass selection the most extensive in and around Ubud, most likely in all of Bali, and the wine list itself worth a visit but the cocktail list is long and funky, too. And this bar even comes with its very own kitchen - the tasty gastro delights were created by Executive Chef Miles Belfield.

Definitely a place to stop by before or after dinner, meet friends, celebrate or just to spend a precious moment by yourself. The team is also scheduling regular events in this great space so stay tuned. The bar is currently open from 4pm-11:30pm but will soon also open for lunch.
